Re-Engineer Your Life Holistic Health Summit

Saturday, January 27, 2018

9:00AM-4:30PM

**Pryzbyla Conference Center
Catholic University
620 Michigan Ave., NE
Washington, DC 20064**

Why a Holistic Health Summit?

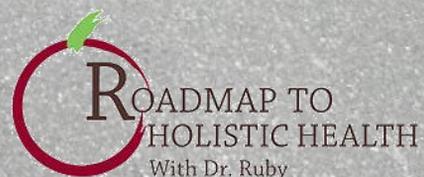

The *Re-Engineer Your Life* Holistic Health Summit is a transformational conference that provides effective strategies for achieving total wellness. Hosted by Roadmap to Holistic Health, this summit offers expert informational guidance on naturally caring for the body with an emphasis on prevention, and a holistic approach to combating illnesses. Doctors, nutritionists, and other health practitioners facilitate discussions and workshops on plant-based nutrition. Additionally, methods for improving or reversing common and chronic conditions such as diabetes, cancer, kidney disease, digestive disorders and more are designed to empower each participant.

Holistic nutrition and healing, balanced emotional health, and meditation provide attendees with a concrete road map to personal well-being. The summit also focuses on environmental consciousness and sustainability, such as plant-based eating and urban gardening. **Highlights include the Summit Wellness Fair, keynote addresses, a free yoga class, free giveaways, samples, and deliciously healthy, plant-based continental breakfast and lunch.**

Now, in it's fourth year, the *Re-Engineer Your Life* Holistic Health Summit is designed to meet the needs of lay people interested in improving personal health as well as healthcare professionals interested in learning more about holistic healing modalities to connect with other healthcare practitioners and businesses.
